Monthly software cost

Item	$ per month	Basis
Regional data (GCC, Africa)	500	Estimate
Apollo, 2 seats	158	List price
Sales Navigator	200	Estimate; manual use
Clay Launch	185	List price; credits extra
Email verification	40	Estimate
Smartlead	174	List price

Domains and mailboxes	175	Estimate
Claude plus automation (replies, qualification)	250	Estimate
WhatsApp API	100	Estimate; after reply only
Itemised total	**1,782**	

The earlier diagram showed about $1,980 per month. The line items above add up to $1,782; the roughly $200 difference was headroom for Clay credits and usage, which varies with volume. Budget between the two figures until real usage is known.

Excluded: people, legal review, marketing. Country consent rules (for example Germany, Saudi Arabia) need local legal confirmation before launch.
